QUALITY TOOLS FOR THE PROFESSIONAL

0-30V Power Scope Automotive Probe

- Probably the most advanced automotive probe on the market, with a huge range of functions for effective automotive diagnostics, making short circuits and bad earths easy to find.
- Features a scope function to visually test component signals, with the added benefit of maximum/minimum volts, frequency and duty cycle displayed.
- Allows components to be activated in situ or prior to installation.
- The fly lead allows continuity and polarity testing with a high-contrast colour LCD display giving a 7mm high read-out.
- Feature audible and positive/negative voltage indicator and two integral work lights.
- 6mtr Lead connects to the battery supply and reaches to all areas of the vehicle. Includes a cigarette lighter adaptor.
- **Model No. PP100**
- List Price £149.95

Laser Wheel Alignment Gauge

- Optical system uses low radiation laser beam to indicate toe-in or toe-out.
- Single leg configuration and reversible contact probes allow on-ramp use.
- Works on practically all cars and light commercials with rim diameters from 200 to 600mm.
- Powered by 2 x AA cells and includes operating instructions.
- **Model No. GA50**
- List Price £699.95

Four-Wheel Laser Wheel Aligner

- Fast, simple and accurate alignment of both front and rear wheels.
- Optimises vehicle performance and set up after installation or modification of steering or suspension components.
- Simple and fast to use, it is ideal for the busy professional workshop and has a fast return on investment, potentially adding value to every steering or suspension job.
- This fully portable kit is also ideal for track-day set up for the enthusiast.
- Works on practically all cars and light commercials with rim diameters between 330mm(13") and 560mm(22").
- Supplied with steering wheel clamp, wheel turn plates and wheeled storage rack.
- Supplied with comprehensive operating instructions.
- **Model No. GA70**

Hand-Held Automotive Single Channel Oscilloscope & Multimeter

Simple to use oscilloscope that allows observation of constantly varying signals from vehicle components and sensors. With a bandwidth of 20MHz the unit is suitable for detecting CAN signals on modern vehicles. Functions include date hold, record, auto-ranging and USB interface for downloading data to PC. This versatile unit also has a built in multimeter with large digit display and bar graph.

- **Model No. TA330**
- List Price £799.95

Display: 320 x 240 pixel with LED Backlight
Bandwidth: 20MHz
Sample Rate: Maximum 80MSa/S
Input Impedance: 1MΩ
Maximum Input: 600V
Memory Capacity: 6 Waveforms
Trigger Mode: Auto, Normal, Single
Multimeter Modes:
Voltage DC & AC, Current DC & AC, Resistance, Capacitance, Continuity, Diode
Battery: 3.7V Lithium Polymer
Operating Time: 3hr with Backlight
PC Compatibility:
Windows 98, ME, 2000, XP, Win7, Vista

EOBD Code Readers with Vehicle Specifac Applications

Emission Brakes Air Bag

A sophisticated and powerful range of OBDII / EOBD based diagnostic tools takes the guess work out of fault finding on today's vehicles, saving the technician valuable time and the garage owner money. This family of diagnostic tools gives clear and concise generic DTC definitions, while also providing manufacturer specific definitions for engine, ABS, air-bag and transmission. These CAN enabled tools will then enable the user to extinguish the MIL light, clear any DTCs and reset the vehicle's monitors.

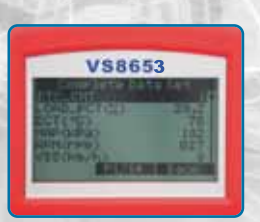
6-24V Auto Probe with 4.5mtr Cable

- Model No. PP1
- List Price £39.95

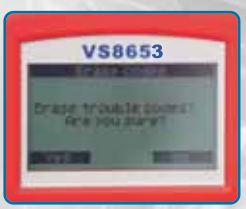
- Reads and clears air bag, ABS and transmission DTCs.
- Large back-lit LCD screen.
- CAN enabled tool, retrieves generic P0, P2 and P3 and U0 codes for engine emissions and also picks up manufacturer specific P1, P3 and U1 codes.
- Turns off MIL light, clears codes and resets monitors.
- Stores freeze frame data for later evaluation and will also display monitor and I/M readiness status.
- Reads and displays the live ECU/PCM data stream, plotting selected functions graphically.
- Live display of O2 sensor data and has a memory which enables on and off-line storage and playback of data.
- Built-in data library with lookup functions is also included.
- Updateable via web-based downloads over the USB cable included with the scanner and will link with a PC enabling the print-out of stored data.
- Supplied in storage pouch.
- Requires 4 x AA Batteries (included).



Live data stream direct from ECD.

Graph live data for easy interpretation.

Save data for later referal.



Read and clear DTCs and turn off engine light.

Hydraulic Brake & Clutch Bleeding System 230V

230V

- One-man brake and clutch bleeding made easy.
- Ideal for use on the vehicle lift as unit maintains system pressure using electric pump to drive clean hydraulic fluid through a long high pressure hose to the reservoir - enables quick, 'walk-around' brake bleeding.
- High pressure system feeds fluid at up to 5.8bar making it particularly suitable for modern brake systems found on many vehicles including Audi, BMW and Mercedes.
- Features thermal control of pump for long and reliable pump life.
- Includes Ø42mm reservoir adaptor and accepts all manner of brake fluid canisters up to 10ltr depending on their shape.
- **Model No. VS0206**
- List Price £799.95
